WHY THIS PROGRAMME?

OPTIMIZE INVENTORY

Improve inventory control, visibility and stock accuracy.

REDUCE STOCK RISKS

Manage shortages, overstocking and disruption exposure.

IMPROVE CONTINUITY

Strengthen warehouse flow and supply availability.

DRIVE EFFICIENCY

Improve space utilization, productivity and cost control.

IN-HOUSE DELIVERY OPTIONS

- ✓ Onsite at client premises
- ✓ Live virtual instructor-led format
- ✓ Hybrid delivery format
- ✓ Customized duration based on organizational requirements

INDUSTRIES WE SERVE

- ✓ Oil & Gas
- ✓ Manufacturing
- ✓ Logistics & Transportation
- ✓ Utilities
- ✓ Government & Public Sector
- ✓ Construction & Engineering
- ✓ Healthcare & Pharmaceuticals
- ✓ Ports & Maritime

COURSE OVERVIEW

Inventory and warehouse operations play a critical role in supply continuity, operational efficiency, cost management, and customer service. Organizations require stronger inventory visibility, accurate stock controls, efficient warehouse workflows, and resilient replenishment practices.

This in-house program strengthens inventory planning, stock control, warehouse operations, accuracy systems, safety, risk management, and continuous improvement through practical operational frameworks.

Business Challenges Addressed

- > Inventory visibility limitations
- > Stock shortages and overstocking
- > Inventory accuracy gaps
- > Weak replenishment planning
- > Warehouse workflow inefficiencies
- > Poor space utilization
- > Lead-time uncertainty
- > Material handling risks
- > Operational bottlenecks
- > Inventory continuity pressures

Key Learning Outcomes

- > Improve inventory planning and stock control
- > Strengthen inventory visibility and accuracy
- > Optimize warehouse layout and workflow
- > Improve replenishment and safety-stock decisions
- > Enhance receiving and dispatch coordination
- > Reduce warehouse bottlenecks and inefficiency
- > Manage inventory disruption risks
- > Improve inventory reporting and monitoring
- > Strengthen warehouse safety and productivity
- > Build long-term inventory capability

WHO SHOULD ATTEND

Supply Chain Managers

Procurement Managers

Logistics Managers

Operations Managers

Warehouse & Distribution

Supplier Management

Planning & Forecasting

Business Continuity

Risk Management

Operational Excellence

TRAINING METHODOLOGY

Interactive learning approaches support practical application and can be customized to the organization's environment, industry, and participant experience.

ID Instructor-Led Discussions

ICS Industry Case Studies

PE Practical Exercises

GW Group Workshops

SA Scenario Analysis

RMA Risk Mapping Activities

ORD Operational Resilience Discussions

ITE Interactive Team Engagement

COURSE MODULES

01 Inventory Management Fundamentals

- Principles of inventory management
- Types of inventory
- Inventory lifecycle concepts
- Inventory visibility and operational impact
- Inventory-related operational risks

02 Inventory Planning & Stock Control

- Inventory planning approaches
- Stock replenishment tools
- Safety stock considerations
- Lead-time management
- Inventory optimization techniques

03 Warehouse Operations & Layout Management

- Warehouse operational principles
- Warehouse layout optimization
- Storage and space utilization
- Receiving and dispatch processes
- Warehouse workflow coordination

04 Inventory Accuracy & Control Systems

- Inventory tracking and monitoring
- Cycle count practices
- Inventory reconciliation methods
- Stock accuracy improvement techniques
- Inventory reporting approaches

05 Warehouse Safety & Operational Efficiency

- Warehouse safety considerations
- Material handling practices
- Warehouse productivity improvement
- Reducing operational bottlenecks
- Warehouse performance monitoring

06 Inventory Risk & Operational Continuity

- Inventory-related disruption risks
- Managing stock shortages and overstocking
- Inventory continuity planning
- Demand and load balancing
- Inventory contingency approaches

07 Continuous Improvement in Warehouse & Inventory Operations

- Warehouse performance KPIs
- Process improvement approaches
- Inventory optimization reviews
- Operational efficiency enhancement
- Building long-term inventory management capability

TAILORED TO YOUR NEEDS

Modules can be customized to align with your industry, operational environment, and participant experience.
